

Standard Bent Glass

Standard Bent Glass provides bullet resistant glass products for protection against a wide range of ballistic threat levels.

- **All Glass** products combine multiple layers of glass and polyvinyl butyral (PVB) with “no spall” protection and UL Listings for various levels of resistant protection.
- **Glass-Clad Polycarbonate** products combine the durability and abrasion resistance of glass on the “attack” side and the impact resistance of polycarbonate to the “witness” side, providing thinner and lighter security glass products with “no spall” protection.

Bullet Resistant Glass (All Glass) – Multiple Layers of Glass and PVB

PRODUCT	CODE	THICKNESS	WEIGHT Lbs./SF	PROTECTION LEVEL
UL Level 1	BR-113	1 1/4”	15.82	9mm Full Metal Copper Jacket with Lead Core

Bullet Resistant – Glass-Clad Polycarbonates

PRODUCT	CODE	THICKNESS	WEIGHT Lbs./SF	PROTECTION LEVEL
UL Level 1	SBG-175	3/4”	7.14	9mm Full Metal Copper Jacket with Lead Core
UL Level 2	SBG-293	15/16”	10.34	.357 Magnum Jacketed Lead Soft Point
UL Level 3	SBG-311	1 1/8”	12.19	.44 Magnum Lead Semi-Wadcutter Gas Checked
UL Level 4	SBG-412	1 1/4”	14.04	.30 Caliber Rifle Lead Core Soft Point (.30-06 Caliber)
UL Level 5	SBG-513	1 5/16”	15.89	7.62mm Rifle Lead Core Full Metal Copper Jacket, Military Ball (.308 Caliber) One (1) Shot.
UL Level 8	SBG-822	2 1/4”	26.81	7.62mm Rifle Lead Core Full Metal Copper Jacket, Military Ball (.308 Caliber) Five (5) Shots.
