

# LEARN AND EARN

## Virtual / In-Person Presentation: Specifying ACM Installation Systems

Earn: 1 AIA LU/HSW Credit

With many options in designing a high-performance aluminum composite material (ACM) wall panel assembly, this course will provide information on the wall system, differences in ACM panels and installation systems, as well as discuss considerations for selecting a product and system.

- ✓ Identify the basic elements of an exterior ACM wall panel assembly
- ✓ Discuss considerations for selecting continuous insulation
- ✓ Understand the various core materials in ACM panels
- ✓ Understand the different types of ACM installation systems
- ✓ Discuss considerations for selecting an ACM panel and installation system
