

CONTINUING EDUCATION PROGRAM

AIA/CES Registered Provider Program Summary for: **Designing with Fire Rated Glass (In-Person or Live Webinar)**

HOSTED BY: **ADAM OLSON, SALES REPRESENTATIVE**

Adam is a 2nd generation architectural consultant and sales representative for a dozen companies, including **SAFTI FIRST**[®], focusing on the vertical built environment. With 20 years in the construction industry, he specializes in fire-rated glazing, translucent daylighting panels, metal wall panels, and unique structural glass systems.

Adam has been delivering our AIA-registered presentation to various architecture firms, AIA local chapters, CSI local chapters and more. Adam is also the president of DesignOhio and a member of CSI.

PROVIDED BY: **SAFTI FIRST**[®] FIRE RATED GLAZING SOLUTIONS

Program Number: SAFTI10

Length: 1 hour

Credits: 1 LU hour

HSW: Yes

LEARNING OBJECTIVES:

“**Designing with Fire Rated Glass**” by **SAFTI FIRST**[®] is a must-have for all design professionals. This program empowers you to choose the correct code compliant glazing product for every fire-rated application. We show you how to:

- Understand safety glazing requirements and how they apply to various fire rated glazing products;
- Identify the difference between fire protective vs. fire resistive glazing based on the code and performance requirements of the application, not the manufacturer’s product testing;
- Choose the correct and code approved fire rated glazing products based on current IBC code requirements and applications;
- Learn how today’s advanced fire rated glazing products can enhance a building’s overall design and performance.

TARGET AUDIENCE:

Architects, engineers, specifiers, facility managers, building code officials and other members of the building community. This information is especially useful to professionals involved in designing Healthcare, Education, Hospitality, Government, and Commercial facilities which often use fire rated glass.

METHOD OF DELIVERY:

In-person or live webinar PowerPoint presentation with videos, charts and examples.

COST:

There is no cost to bring this program to your company or organization.

To schedule “**Designing with Fire Rated Glass**” for your company or organization, please contact Diana San Diego at dianas@safti.com or 415.230.6756.
